Week 36, 2020

BUP symposium 2020 online, behind the scenes. Photo: Pontus Ambros

Dear BUP friends,

We hope that you all have had a nice summer and a great start of the academic year of 2020/21. At the BUP coordinating secretariat, we have had a busy start of the semester with the BUP symposium online, which was successfully conducted with about 100 research presentation and many listeners.

We would also like to take the opportunity to express our concerns over the violence and political turmoil connected to the presidential election in Belarus. We hope that a peaceful solution will soon be reached and that our colleagues and friends stay safe in these difficult times.

With best regards,

The Baltic University Programme's coordinating secretariat

BUP secretariat news

PhD students are invited to

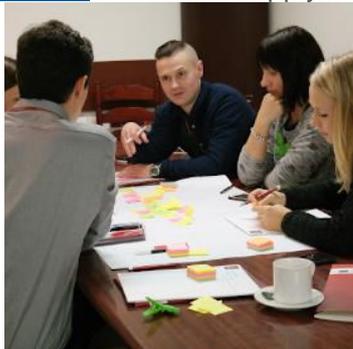

The BUP's VIII PhD Students Training

The PhD students training is an opportunity for PhD students to meet and discuss scientific problems with a focus on sustainable development in an interdisciplinary, international, multicultural, and regional context. In this way, students will also get the opportunity to become acquainted with research work at other universities and their scientific traditions. The training program will be based on an interdisciplinary approach.

- 22-26 of November 2020
- Rogów, Poland and online

- Open for PhD students that have completed at least 1 year of their research.
- Free of charge for PhD students from BUP member universities (Cost for others 650€)

Hamburg University of Applied Sciences invites colleagues to take part in a survey

Influences of the COVID-19 pandemic on domestic waste- with a special focus on food waste- at households in Europe

An international team led by the [European School of Sustainability Science and Research \(ESSSR\)](#) and [the Inter-University Sustainable Development Research Programme \(IUSDRP\)](#) is undertaking a study to identify the extent to which the lockdowns triggered by the COVID-19 pandemic have influenced domestic waste- with a special focus on food waste- at households in Europe. For this purpose, a survey has been designed and the instrument can be seen at clicking the button.

With regards,
The ESSSR and IUSDRP Teams
